

# OBEA October 2010 Conference At The Oregon Gardens

The Oregon Garden offers visitors more than 20 specialty gardens. You'll discover waterfalls, quiet ponds, fountains, a unique display of conifers, the 400-year old Signature Oak, a Northwest Garden, a children's garden, and a pet garden. The children's garden is complete with an in-ground hobbit house, tree fort, furniture filled with colorful annuals, perennials and other kid-friendly plants. With an overnight stay at the conference you'll receive free admittance to the Oregon Gardens.

Our 2010 theme is Sustainability. The business world is constantly changing in the search for good stewardship of their resources while lowering costs. In order for us, as business educators, to teach this rising generation to live in such a world, we must educate ourselves first.

Plan to be at the Oregon Gardens with us in 2010. We hope to educate, inspire and grow some new ideas.
